Friend:

We are pleased hearing from you that our 250 watts travel as far as New Jersey.

It is of grate pleasure to me to thanks you for inform us that,and I would like you to accept this as a verification to your information.

All what you say there is correct including that WR WRAI is a new station, taking place of WWWW.

As you suggest or think that our new letters are much easy to say Radio Airport International, it is true also,but we identifie them in Spanish (Radio Aeropuerto Internacional).

Thanks again for your report and be shure that we really appreciated it.

Truly yours

Ramón Espinosa Orta
